OPTIMUM COMPETITION NUTRITION

- Show Jumping
- Hunters
- Eventing
- Polo
- Western Disciplines
- Endurance

ProtENZA is a super premium fully-fortified textured sweet feed, formulated with the competition horse in mind. Manufactured with optimum levels of soluble fibers, oils and the highest quality grains, ProtENZA provides a 20% boost in energy over conventional sweet feeds. Soluble fiber and oils provide for long lasting energy release and controlled performance in the equine athlete.

ProtENZA is a highly palatable product ideal for any discipline requiring a feed with high levels of energy, but reduced protein content. ProtENZA is calorie-dense but “non-heating”—perfect for horses that are difficult to handle or mentally too “high.”

ProtENZA is fortified with Stamm 30®, the industry’s most highly valued equine protein, vitamin and mineral supplement. Stamm 30 supplies high levels of bioavailable microminerals, bioavailable magnesium, a proprietary blend of equine specific yeasts, a natural source of the antioxidant vitamin E and bioavailable selenium.

NUTRIENT ANALYSIS

Protein	10%
Digestible Energy	1500 kcal/lb
Fat	10%
Fiber	10%
Calcium	.7%
Phosphorus	.55%
Zinc	120 ppm
Copper	40 ppm
Vitamin A	5,500 IU/lb
Vitamin D	650 IU/lb
Vitamin E	100 IU/lb
Selenium	.3 ppm

Feeding Instructions

ProtENZA is designed to be fed at 6-18 pounds per day depending on the intensity of the work, size and body condition of the horse. When fed as directed, additional protein, vitamin or mineral supplements are unnecessary. Always provide clean, fresh water and high quality hay.
